

Bicuspid Bands

MICRO ETCHED

PROVIDING A SECURE FIT YOU CAN COUNT ON!

Precision-shaped tooth anatomy for a tight, secure fit and excellent retention time after time.

Whether you are upgrading from your current band system or are just starting out, Ortho Specialties has a band system to meet your specifications. Manufactured under stringent quality control measures, you can count on Ortho Specialties Bicuspid Bands to meet the demands of your orthodontic practice.

- “Snap” Fit.
- Electro chemical etching process provides permanent identification.
- Precision-shaped tooth anatomy.
- Distinct right and left anatomy is completely proportioned in all planes and for each band size.
- Stainless steel that exhibits properties of “hardness” for strength to avoid wall collapse when fitting, yet is malleable enough for “snap” fitting that requires little or no burnishing.
- Increased buccal height for greater flexibility in the placement and positioning of buccal tubes and lingual attachments.
- 24 bicuspid sizes graduated in even, closely spaced increments for improved fit.
- All Kits contain 1/2 right and 1/2 left bands.
